it is definitely possible for me to say that Pakistan is making an effort in this direction.

SHRI MURLIDHAR CHANDRAKANT BHANDARE: Sir, India stands out as a leader in the field of peace in this world. Our track record on the use of nuclear energy for peaceful purposes is impeccable. There are two views on achieving peace on our planet. The first which is widely held is the elimination of all nuclear weapons. The second held by very leading human rights activists like Prof. Sakharov and French Philosopher Regis Debray is the theory of deterrence, that is, the presence of nuclear weapons itself acts as a deterrent and eliminates their use. Now that everybody knows that the Islamic bomb in the basement of Pakistan is only half a turn away of the screw, will the Government not vacillate any longer and since our track record, as I said, is very clear, will it not vacillate any more and exercise its option so as to send the right signal to those who are in possession of this nuclear arsenal?

SHRI I. K. GUJRAL: Sir, one thing I would like to submit to my hon. friend is, let us not call the bombs or weapons by any religious names. Bombs are devastating, but every religion, particularly Islam, is peace-loving. Therefore, I do not like to call any bomb by the name of Islamic bomb .(*Interruptions*)... Bomb is a bomb ...(*Interruptions*)...

SHRI MURLIDHAR CHANDRAKANT BHANDARE: Sir, I never discourage any religion. I love it as much as my own religion... (*Interruptions*)...

SHRI I. K. GUJRAL: I am only submitting that it is good for all of us—not you, but all of us – that we should not get taken in by the rhetoric use by the media sometimes and we should be very restrained because we have our own view...(*Interruptions*)...

SHRI PRAMOD MAHAJAN: Let him come to the answer.. (*Interruptions*).....

MR. CHAIRMAN: His question is mainly about using it as a deterrent.

SHRI I. K. GUJRAL: So far as the effectiveness of a particular weapon is concerned, the world is having a review of the whole thing. You have seen for yourself the way the super-powers are having a review about the deterrence or its utility, but that is a different issue altogether. So far as Indian security is concerned, we have to remain constantly conscious and vigilant about things happening around us, be it from the East or from the West.

श्री शंकर दयाल सिंह : सभापति जी, मंत्री महोदय ने मूल प्रश्न के उत्तर में जो जवाब दिया है, वह संतोषजनक नहीं है ।

श्री एन०के०पी० साल्वे: दिया है ?

श्री शंकर दयाल सिंह : जो कुछ भी दिया है, थोड़ा बहुत ... (**व्यवधान**) ... इसलिए मैं जानना चाहता हूं कि शांति के लिए ही सही, सुरक्षा के लिए ही सही क्या भारत में यह क्षमता है कि यदि पाकिस्तान ने एटम बम का प्रयोग किया तो हम भी उस का जवाब दे सकें ?

श्री सभापति : प्रश्न काल समाप्त ।
